Dear Mr. Ruch:

This responds to your Freedom of Information Act request of October 23, 2018 in which you requested:

- Complete copies of the latest PFAS sampling reports issued by the Navy for Navy Base Realignment and Closure (BRAC) sites in California;
- All correspondence between the Navy BRAC program and public and private water districts and regional Water Boards related to PFAS sampling reports for BRAC sites former Marine Corps Air Station Tustin and former Marine Corps Air Station El Toro for the period January 1, 2014 to present; and
- Decision documents regarding the Navy's determination not to delineate PFAS plumes at former Marine Corps Air Station Tustin and former Marine Corps Air Station El Toro.

Your request was received by this office on October 30, 2018 and assigned Case File Number DON-NAVY-2019-000699.

Our search for responsive records encompassed only those records in existence as of December 31, 2018. During our search, we examined the files maintained by this office and identified reports and correspondence regarding PFAS sampling responsive to your request. The Navy has made its final determination regarding responsive records and these records will be released to you as they become available.

Although our records processing continues, we have prepared a partial release of records and have made 81 records available to you.

Please be advised that fees associated with the processing of your request are waived in this instance.

In view of the above, you may consider this to be an adverse determination that may be appealed. Since you have created an account in FOIA ONLINE, you may submit an appeal directly within the web-based system. To do this, you would log in to your account, retrieve
